DIRECTIONS FOR USE

IMPORTANT: This information is approved as part of the product label. All instructions within this section must be read carefully in order to obtain safe and successful use of this product.

biopower is an adjuvant for use with all authorised herbicides in cereals, ornamental plant production, amenity vegetation, natural surfaces not intended to bear vegetation, permeable surfaces overlying soil, and industrial and amenity areas. Weed control is not obtained by using biopower alone. When used in cereals, biopower may be tank-mixed with all authorised plant protection products. When using biopower with an authorised plant protection product, the statutory conditions of use of the plant protection product must be followed. Do not use biopower with an authorised plant protection product later than GS 52 in cereals.

Shake well before use.

The maximum concentration of biopower in the spray solution is 1.0%.

Store well away from seeds, fertilisers and animal feedingstuffs in a safe, dry place designated as an agrochemical store.

PROTECT FROM FROST
