

Tank-Mix Sheet

Please note that physical compatibilities may not be approved tank-mixes. The tests do not check for any adverse crop phytotoxicity or for the biological efficacy of the individual components when applied in a tank-mix. Bayer Crop Science gives no warranty and accepts no liability in respect of physical compatibilities; therefore, use is at grower's own risk.

All the requirements or restrictions on other product labels must be adhered to when tank-mixing with Conviso® One. Always check the label and EAMU status for all products in a mix before application. Contact Bayer Crop Science for full details.

Conviso® One is physically compatible with only **ONE** of the products or product mixes listed below, with constant agitation of the sprayer tank during mixing, transportation and application only.
