

# Tank-mix Sheet

Please note that physical compatibilities may not be approved tank-mixes. The tests do not check for any adverse crop phytotoxicity or for the biological efficacy of the individual components when applied in a tank-mix. Bayer Crop Science gives no warranty and accepts no liability in respect of physical compatibilities; therefore, use is at grower's own risk.

All the requirements or restrictions on other product labels must be adhered to when tank-mixing with Sonata<sup>®</sup>. Contact Bayer Crop Science for full details.

Always maintain continuous agitation of the sprayer tank during mixing, transportation and application. Sonata<sup>®</sup> is physically compatible with only **ONE** of the following tank-mix selections:

Fungicides		
Amistar	Cercobin WG	Karma

Insecticides		
DiPel DF	Envidor <sup>®</sup>	Paraat
Dynamec	FLiPPER†	Tracer

Others (adjuvant, fertiliser)		
Nutri-Phite	Silwet	

† Physically compatible with constant agitation, but excessive use of an agitator may cause the formulation to foam. Keep stirrer and mixer at minimum speed.

Recent Changes	
01/07/20	2-way mixes with FLiPPER and Envidor added.
